

Constantly looking to improve its products, VITRINEMEDIA innovates and introduces a completely redesigned VM One: thanks to a brand new fixtures system, the VM One is now hybrid.

Constantly looking to improve its products, VITRINEMEDIA innovates and introduces a completely redesigned VM One: thanks to a brand new fixtures system, the VM One is now hybrid.

This LED display with premium design and square corners enables mixing formats: it is now possible to display content in landscape as well as in portrait orientation. For even more elegance, one side is finished in chrome, and the other in white. From complete modularity, the VM ONE HYBRID is available in every format from A4 to A0, as well as in S and L banners.

Thanks to its seamless beveled illuminated borders and its 6000 LUX of emitted light, the VM ONE HYBRID is designed for maximum impact and visibility both in your storefronts and indoor areas. And thanks to its innovative fixtures, it is simple to install and compatible with the entire range of VITRINEMEDIA fixtures. For outstanding configurations, is even compatible with the VM LIGHT & PLAY!

For your high end and modurable storefronts, the VM ONE HYBRID is the remarkable solution.
