Power Box

- Fixer la hauteur du support en joignant ou non toutes les jambières.
Trois hauteurs de base ainsi réalisables pour le support : 17, 34 et 44 cm. Dans le cas d'un support d'une hauteur de 17 cm, la hauteur maximale des barres aluminium ne devra pas dépasser 150cm (sois 3 jeux de 4 barres).
*Adjust the height of the base by choosing whether or not to connect all the leg pieces.
You can choose from three different base heights: 17, 34 and 44 cm. In the case of a 17 cm base, the aluminium bars should not go over 150cm in height (3 to 4 bars).*

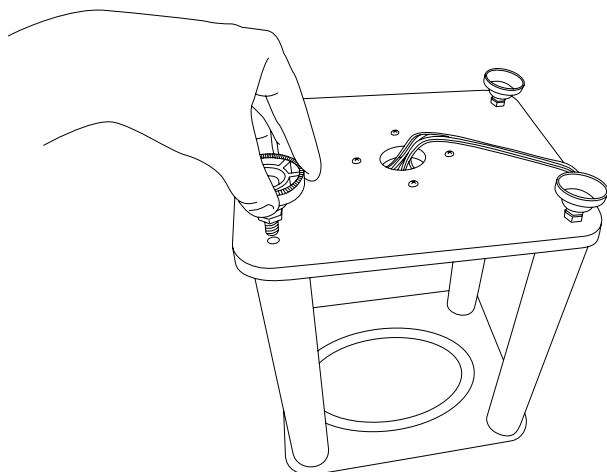

- 2** Visser les 4 jambières sur la plaque supérieure du support (montage standard de support au 44 cm).
Screw the 4 legs onto the top plate of the base (standard 44cm base height set-up).

- 3** Positionner la plaque inférieure du support sur les jambières. Le plateau rotatif doit se trouver du côté des jambières.
Place the bottom plate on the legs. The rotating unit should be on the plate already attached to the legs.

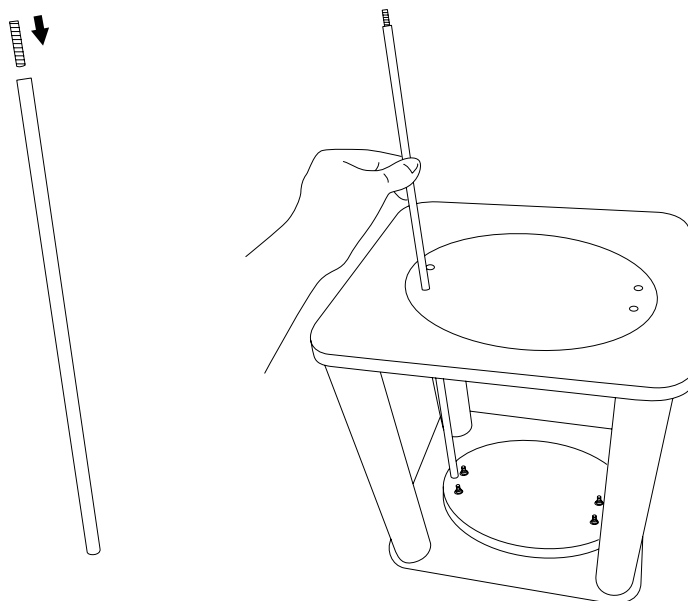

- 4** Visser les pieds sur les jambières à travers la plaque inférieure.
Screw the feet onto the legs through the bottom plate.

- 5** Retourner le support.
Insérer dans les trous du plateau rotatif de la plaque supérieure les barres d'aluminium, et les visser fermement sur les vis du plateau rotatif de la plaque inférieure. Visser les 4 premières barres.

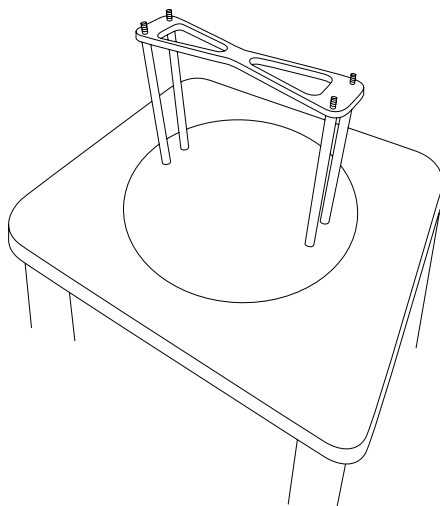

Flip the base so as to have the plate with the rotating unit on top.

Place the aluminium bars through the holes on the rotating part of the plate and screw securely onto the bottom plate. Screw-in the first 4 bars.

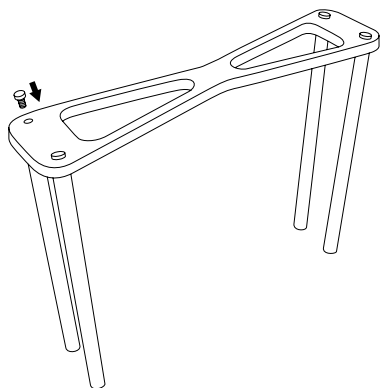

- 6** Insérer les pièces stabilisatrices sur les tiges filetées des barres d'aluminium, puis visser fermement 4 nouvelles barres. Répéter cette opération en utilisant toutes les barres et les pièces stabilisatrices pour monter à la hauteur maximale (210cm).

Insert the stabilizers onto the the aluminium bar inserts, then firmly screw-in the 4 new bars. Repeat this process using all the bars and stabilizing pieces to reach the maximum height (210cm).

7 Fixer la dernière pièce stabilisatrice sur le dernier niveau de barres à l'aide des bouchons filetés.

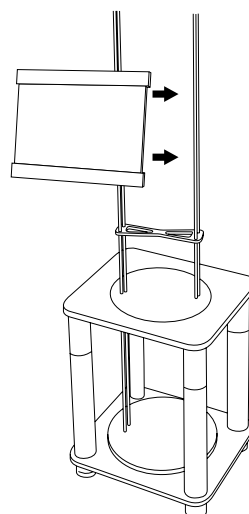

Fix the last stabilizers on the top bar with the help of the caps.

8 Clipser les afficheurs sur les barres. Attention : le logo VitrineMedia doit se mettre à l'endroit.

Clip the display panels to the bars.

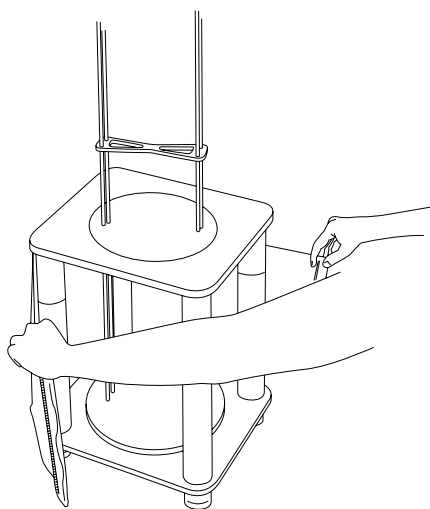

Warning: the VitrineMedia logo must be placed right side up.

9 Montage de la jupe (OPTION) Présenter la jupe autour du support, sa fermeture éclair se fermant de haut en bas.

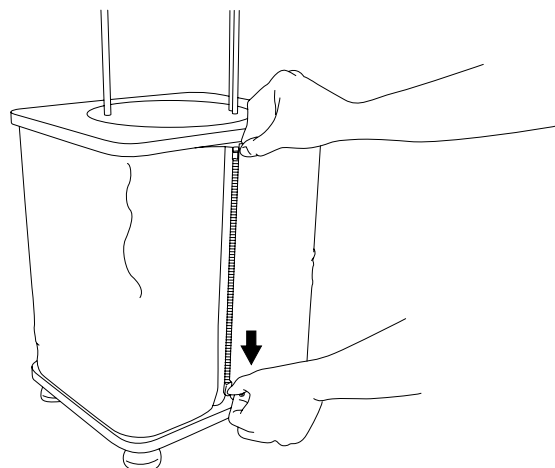

Adding the skirt (OPTIONAL)

Place the skirt around the base. The zipper closes from top to bottom.

10 Fermer la fermeture éclair et vérifier la position de la jupe sur le support.

Close the zipper and check that the skirt is placed correctly on the base.
